

Getting Started

1.1 Install theme

To install this theme you must have a working version of WordPress already installed. For information in regard to installing the WordPress platform, please see the WordPress Codex - http://codex.wordpress.org/Installing_WordPress

Extract the zipped package downloaded from themeforest to your desktop, in the extracted package you will find jolisport.zip inside theme folder which is the wordpress theme. You can install the theme in two ways:

1. FTP

Extract **jolisport.zip** file and upload the extracted folder to **/wp-content/themes/** folder on your server.

2. WordPress Admin:

APPEARANCE → THEMES → ADD NEW → UPLOAD THEME → BROWSE

Choose **jolisport.zip** and press **Install Now** button to upload and install the theme. After uploading the theme, you have to activate it.

APPEARANCE → THEMES

to activate the theme.

1.2 Activate theme

APPEARANCE → THEMES → ACTIVATE

1.3 Demo-content

Follow these steps to make proper import routine:

- Demo content must be installed on the parent theme, make sure that you activate the theme **jolisport**
- Make sure that you have installed and activated the following plugins:

- One Click Demo Import
- WooCommerce
- WPBakery Page Builder
- Ultimate Addons for WPBakery Page Builder
- Slider Revolution
- YITH WooCommerce Wishlist
- YITH WooCommerce Compare
- Contact Form 7
- joli-sport Author Social Icons

If you don't know how to achieve this, please follow:

http://codex.wordpress.org/Managing_Plugins.

- Navigate to **Appearance >> Import Demo Data**

- Click **Import Demo Data** button, and please be patient, import procedure can take some time (your WordPress need to download all images from our original demo).

Note: photos used in this theme are for preview purposes only! They are not included in theme files.

1.4 Customizer

APPEARANCE → CUSTOMIZE → THEME COLORS

You can adjust color for main accents.

1.5 Settings

The last important setting is **A static page**. It allows to set Home Page (or any other) as a Main Page. By default WP uses blog posts for this page.

SETTINGS → READING → FRONT PAGE DISPLAYS

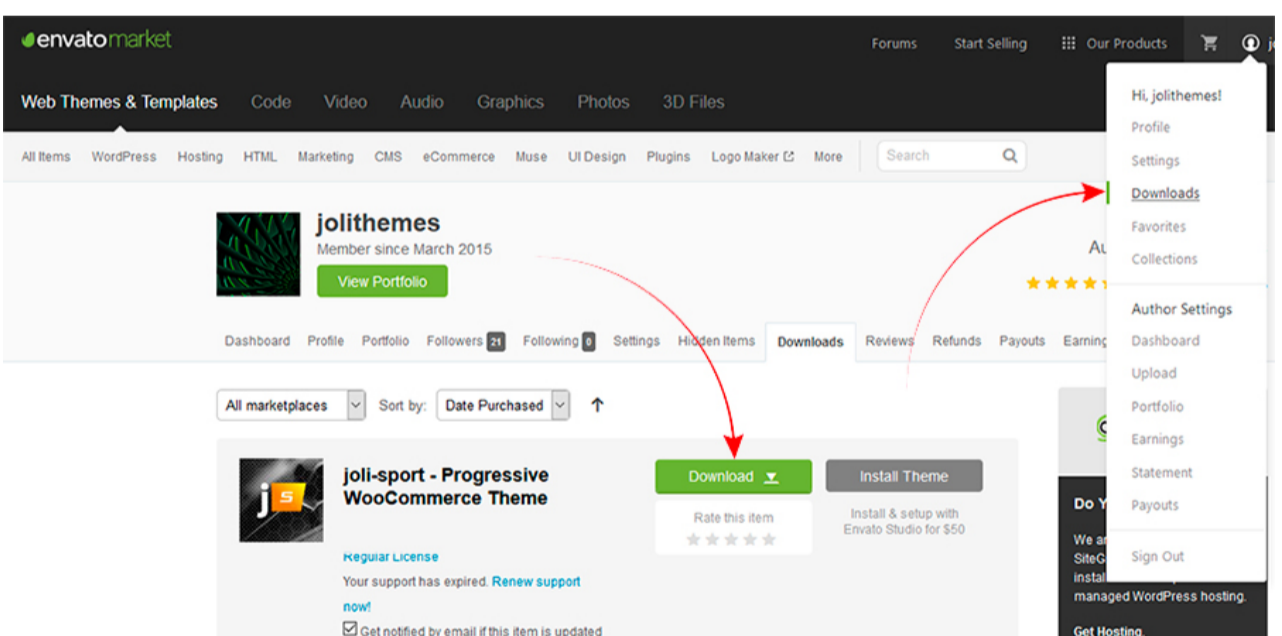

Choose **A static page**, set **Home** for **Front page** and **Blog** for **Posts page**.

Note: you have to create Home page and empty Blog page before this step.

1.6 How to update theme

1.6.1 Update Using FTP

1. Login into your Themeforest account and go to downloads (Dashboard > Downloads)

2. Download the theme into your computer
3. Install an FTP program (Filezilla is free)
4. Retrieve your FTP login information from your hosting admin panel and login into your hosting via FTP
Unzip the item main file
5. Locate **jolisport.zip** and unzip it. Make sure your unzipping software do not create extra directory with the same name nested into each other.
6. Drag and drop theme main folder into your FTP program with the destination : "YOUR_HOSTING_ROOT/YOUR_SUBDIRECTORY/wp-content/themes/"
7. FTP program will give a warning that there is an existing with the same directory name, choose replace all. Once you done login into your wordpress dashboard and go to **jolisport** settings. On the header (beside **jolisport** logo) the theme version will be changed to the latest version. this is the indication that your theme is updated.

1.6.2 Update Through Wordpress Admin Panel

1. For this method you should first install **Theme Upgrades Tool**
2. Unzip the file you just downloaded from ThemeForest and locate the WordPress Theme.
3. Log into your WordPress Dashboard.
4. Click on **Appearance > Themes**.
5. Still within the Themes section, on header tab, click on **Install Themes**, then on header second tab click **Upload**.
6. Click **Browse...** and locate the new theme file.
7. In the **Upgrade existing theme?** option choose **Yes** from the dropdown list.
8. Click **Install Now**.
9. Click **Activate**.
